

AMERICAN BANKERS' SOCIETY TO MEET

Representatives of National Organization to Transport Business After Convention Meeting.

WILL ELECT NEW OFFICERS

Delegates Also Will Be Selected to Represent Oklahoma at Annual Gathering.

Incidental to the convention proper of delegates to the annual conference of the Oklahoma bankers association, but considered a paramount in every detail, will be the meeting today of Oklahoma members of the American Bankers' Association in the hotel at the Tulsa theater following adjournment of the main meeting.

By A. McQuinn, as vice president of Oklahoma, will call the meeting to order for the purpose of electing a successor to himself, president of the executive council and other officers who will represent Oklahoma at the annual national convention of bankers to be held in September.

R. W. Sinclair of Tulsa and L. D. Davis of Claremore are the nominees of the executive council to be replaced. R. W. Sinclair, a well-known member of the council, will remain in office. Successors will be elected for the following: L. D. Davis of Claremore, vice president state bank section; Charles L. Long of El Reno, vice president state bank section; N. H. Graham of Tulsa, vice president trust company section; W. J. Smith of Oklahoma City, vice president savings bank section. A member of the nominating committee and an alternate member of the nominating committee will be named in office today.

In the personnel of the American Bankers' Association, Oklahoma is well represented. All the officers named represent this state each year at the annual convention but the members of the executive council play the greatest part for the booster state in legislative matters.

Neither the place nor date for holding the annual national convention have yet been decided upon, according to Vice President McQuinn, but these arrangements will be perfected before adjournment of the executive council now in session at Sulphur Springs, Ark. E. W. Sinclair, president of the Exchange National bank, Tulsa, representative on the council and one of Oklahoma's councilmen, is attending the session now. Final announcement of time and date will be made upon return of Mr. Sinclair.

Deny Saloon Opening

BIRNEY, Ariz., May 21.—Official denial that the ban on liquor in the state of Sonora will be lifted and that saloons and gambling houses will be permitted to operate on the Mexican side of the boundary line were received today by R. Valde, Mexican consular officer at Naco. The statement came from the governor of Sonora in reply to a telegram from the consul relative to the reported decree of the legislature.

Get Only Two Bids

WASHINGTON, May 21.—Only two definite bids were received by the navy department today for the construction of the remaining two of the 19 super-dreadnaughts authorized by congress in 1918. The Newport News Shipbuilding & Dry Dock Co. offered to build one in 45 months for \$21,900,000 and the Bethlehem Shipbuilding corporation one in 40 months for \$22,500,000.

Build Up the System After Dangerous Grippe

Prompt Assistance Needed to Regain Your Lost Strength.

If you have been fortunate enough to survive an attack of this dangerous disease, which has been so severe in all parts of the country, you know the damaging effects which it leaves your pain-racked body has been through one of the most trying ordeals of your life, and even if you have won over the millions of disease germs that threatened your life, the effects of the attack are still with you.

Your strength is about all gone, and your vitality is at a low ebb. Experience has proven that no disease leaves the system in a more debilitated and depleted condition. There is a soreness throughout the body, a reminder of the torturing pains which you suffered; the nerves are all unstrung, and your sense of weakness almost borders upon complete helplessness.

The system is "all shot to pieces," resembling very much a war-stricken land that has been devastated by a ruthless enemy. As soon as you are able to be up and about, you realize the important repair that the system needs to restore your former robust condition.

Nature is a great healer, and when all hindering obstacles are removed, nature does her work well. But the process is slow, and assistance is needed, if you wish to lose no time in being fully restored. The rebuilding of wasted tissue and the restoration of lost strength must come from the blood, which is the source of all life, and it is through this

STELLA MAYHEW, AMERICA'S CHEERY COMEDIENNE, AT EMPRESS TODAY

World-Famous \$1,000-a-Week Vaudeville Star, Visits Tulsa for First Time for Special Three-Day Engagement. —She's the Deadliest Enemy of a Grouch Known.

"The deadliest enemy of a grouch ever known" — this is Stella Mayhew, famous vaudeville star, who opens a three-day special engagement at the Empress theater this afternoon and known throughout the vaudeville world as America's cheery comedienne.

It means something when a vaudeville star of the rank and caliber of Stella Mayhew comes to Tulsa. It means that Tulsa is becoming an important city on the theatrical map and that the Empress is keeping pace with its growth. Tulsa is positively the only city in Oklahoma in which Stella Mayhew will appear. In this tour and she was booked especially for the Empress, through the Orpheum booking offices in New York. She is positively the highest priced vaudeville star that has ever visited this city.

During her engagement, Miss Mayhew will sing the following songs, giving two or three at each performance:

"Those Forgotten Boys"

"Feed Us Your Hate"

"Mamma's Little Chocolate Soldier"

"That Dinkin' Tune"

"Liberty Bells"

"The Land in Father's Hands"

"Never Trust a Railroad Man"

"Havin' a Good Time"

Miss Mayhew carries her own accompaniment and the Steinway Grand piano she will use during her engagement is by courtesy of the Jenkins Music company.

Four other acts on the new vaudeville bill beginning with this afternoon's matinee include Rae Eleanor Ball and her brother, also a very fine Orpheum material and Miss Nellie, who is the greatest woman violinist in vaudeville.

Humor with lyrics that read upon studies, is the keynote of "Daddy Long Legs," screen version of the famous story by Dean Webster, in which Mary Pickford will be seen at the Palace next week. In this, the first of the productions to be made by her very own company, Miss Pickford as "Daddy Abbott," easily has the best role of her career. As a poor orphan child, ever helping those about her and making the most of every situation, she finally rises to wonderful heights.

Produced by New Screen Genies.

The picture was directed by Marshall Neilan, one of the new wonders of the screen world. Mr. Neilan is foremost in the new generation of producers and a very young man, but already he has won the name of "The Mark Twain of the Screen," so human and humorous are his touches. The early part of "Daddy Long Legs" is especially full of laugh-winning situations of many sorts.

How the pathetic little ones "carry on" when the hypocritical, matron is trying to make them "show off" for the trustees of the institution, how they go on strike against prunes and how Judy Abbott (the sunny little orphan

Many out-of-town bankers and their wives, who had never had the opportunity of seeing the film, made up a large part of yesterday's matinee crowds. "Hearts of the World" has never been shown generally in the state, and then it was shown at \$1.50 for the best seats in Tulsa, Oklahoma City and Muskogee.

This is the first time it has ever been shown at popular prices.

"Hearts of the World," considered the greatest of all Griffith's big pictures, even better than "The Birth of a Nation," features Dorothy and Lillian Gish, Bobby Harron, George Fawcett, Kate Bruce and little Ben Alexander, the boy star, whose remarkable acting in this picture made him a screen star immediately. The story is said to be the sweetest love story ever told.

Also Triangle Photoplay Presents Hazel Daley in a first-run feature in five parts.

"The Wild Goose Chase"

A Powerful Story of the Far North.

Admission 6c and 15c.
